UNCTAD WIF 2023

Make it in the Emirates

19th October 2023

14:30 – 15:30

**Make it in the Emirates:
Our Promise, Your Future,
For Investors and Innovators to Establish Opportunities to the Society and
Prosper Sustainable Development**

Investing in the Emirates: Unlocking Opportunities for Sustainable Prosperity

Premise: Participate in the 'Make it in the Emirates' campaign, an inclusive invitation extended to industrialists, investors, innovators, and entrepreneurs. When you collaborate with the Ministry, you will gain insight into the outstanding advantages and rewards of establishing your manufacturing presence in the UAE

Introduction: In this session of WIF – Make it in the Emirates, we welcome you all to the land of unparalleled opportunities for those seeking to invest in sustainable prosperity. Thus, to all Innovators and Investors, we extend an open invitation to you all, both local and global, to unlock the immense potential that this region offers. UAE is not just a destination; it's a journey towards sustainable growth and prosperity. Join us in this endeavor as we explore the myriad opportunities that await promising and brighter future for all.

Here, we offer more than just investment potential; we offer a partnership in shaping the future. Our commitment to renewable energy is reflected in the vast solar farms and wind energy projects underway. As of 2021, the UAE had set a target to generate 50% of its energy from clean sources by 2050. Moreover, our smart cities are testaments to the integration of AI and IoT into urban life, creating efficiencies and enhancing the quality of life for residents and businesses alike. UAE had been rapidly adopting IoT technologies across various sectors, including healthcare, transportation, and logistics. We are glad that our commitment towards a clean, smart and healthy community will be pushed through collaboration with our stakeholders. Hence, join us in unlocking these opportunities and be a part of our journey towards a greener and smarter future.
